Disclaimer

The information in this Litepaper is subject to change or update, and should not be construed as a commitment, promise, or guarantee by CYBONIX NFT.

CYBONIX NFT expressly disclaims any and all responsibility for any direct or consequential loss or damage of any kind whatsoever arising directly or indirectly from reliance on any information contained in the Litepaper, any error, omission or inaccuracy in any such information or any action resulting therefrom.

This is not a recommendation to buy or financial advice, it is strictly informational. Do not trade or invest in any tokens, companies or entities based solely upon this information. Any investment involves substantial risks, including, but not limited to, pricing volatility, inadequate liquidity, and the potential complete loss of principal. Investors should conduct independent due diligence, with assistance from professional financial, legal and tax experts, on topics discussed in this document and develop a stand-alone judgment of the relevant markets prior to making any investment decision.

Any payments of financial transactions that you conduct or engage in are final. All purchases of Licensed NFTs, as well as any associated charges, are non-refundable. You shall be responsible for all applicable taxes including any sales or compensating use tax or equivalent tax wherever such tax may arise. The user accepts and acknowledges that CYBONIX and its Affiliates will not be responsible for any communication failures, disruptions, distortions, delays, or any other errors that may arise when you attempt to purchase any Licensed NFTS.

You understand and agree that CYBONIX NFTs are made solely for entertainment purposes only. You agree and understand that: (1) the market and prices for a blockchain asset are extremely volatile and subjective and collectible blockchain assets, such as the Licensed NFTs, have no inherent or intrinsic value, and fluctuations in the price of such blockchain assets could materially and adversely affect the price and value of your Licensed NFTs; (2) there are risks involved with using internet-based currency and asset, including, but not limited to, risk of hardware, software, internet connection failure, risk of malicious software, and risk that unauthorized parties may gain access to your personal information including such information and assets contained in your digital wallet or elsewhere; (3) internet-based currency and assets are not currently regulated by any regulatory regimes, and new regulations or policies that may materially affect the value

of any Licensed NFTs; (4) there is an inherent risk that you may lose access due to loss of private keys, custodial error, or even purchaser error; (5) there are risks related to taxation; and (6) CYBONIX does not make any guarantees or representations about the availability of the Licensed NFTs or the art or that they will host the Licensed NFTs or the Art in any specific location for any specific period of time.

Upon you assuming Ownership of a Licensed NFT, CYBONIX NFT grants you a non-exclusive, worldwide, royalty-free license to 1) use, display, or otherwise enjoy the Art of your Licensed NFT for your own personal use; 2) commercialize your Licensed NFT by producing and selling physical merchandise that portrays the Licensed NFT's underlying Art in its entirety; 3) sell or transfer your Licensed NFTs to another party 4) use your Licensed NFT as part of a third-party website or application which permits the inclusion, involvement, and/or participation for your Licensed NFTs, provided that the website or application cryptographically permits and verifies each NFT owner's rights and ownership to display the Art and the website or application ensures only the actual owner can display the Art.

You understand and agree that these rights are licensed solely to the rightful and legal owner of the Licensed NFT. Your licensed rights to the Licensed NFT will terminate upon the rightful and legal sale or transfer of your Licensed NFT and the new Owner, upon their acceptance of this Agreement, shall receive these licensed rights.

You agree that you have received sufficient information to make an informed decision regarding the decision to purchase or otherwise obtain the Licensed NFTs and that you understand and agree that you are solely responsible for determining the value, nature, and appropriateness of the above risks for yourself.

Executive Summary

CYBONIX is a three-stage collection of 10,000 generative 3D front profile Cyborg NFTs. The collection is split into three subsections including the Genesis (1.0), 2.0, and 3.0. The collection sizes are 1500, 3500, and 5000, respectively.

The origin of the CYBONIX collection comes in the year 2777 as the CYBONIX Cyborgs have been forced off their home planet Cygonia by the Eldor Mystics. With only 10,000 of the most elite CYBONIX Cyborgs surviving the initial attack, they have retreated to their top-secret space facility on the dark side of Wordon's moon. Here the Cyborgs are building and training back up to seek revenge on the mystical warlords who savagely pillaged their world. The CYBONIX Cyborgs exist on the Ethereum blockchain, and the 1500 Genesis Cyborgs are the most powerful, experienced, and valuable members of the community. They are currently training and preparing the next two classes of CYBONIX warriors for their inevitable quarrel with the Eldor Mystics as they attempt to reclaim their homeland.

Roadmap

PHASE 1

FIRST CYBONIX MINT (GENESIS COLLECTION):

The first 1,500 piece CYBONIX Genesis Collection has sold out and is currently preparing for war, and readying the next wave of recruits. The community funds accumulated from this first mint were used towards the implementation of the Cybonix Training Camp Hubs and securement of the strategic partnership with Swift Shootout.

CYBONIX TRAINING CAMP:

A completely customizable community engagement experience to offer maximum value and opportunity for personal growth and development for CYBONIX Genesis holders. This includes access to weekly calls, workshops, masterminds, and community forums in a wide variety of industries and areas of interest.

The different focuses within Wordon's Boot Camp cover a wide range of topics including mindset, mental health and transformational coaching, gaming, fitness, sneakers and streetwear, drone skills, Web3 education, and financial literacy/credit repair.

Schedules will be released and will include weekly calls for each section (7 total per week), along with day-to-day interaction and consistent access to resources to help each holder achieve the highest possible level expertise in the field of their choice. Each different section will be led by team members working in their respective area of excellence. The different subtopics will look something like this:

"Cut The Noise" - Mental Health / Mindset / Transformational Coaching:

Mental Health is extremely important, but often overlooked or even hidden. The CYBONIX team wants to assure that all of our holders have all of the tools, resources, and knowledge needed to take back control of their mindsets and sense of fulfillment in life.

"Play for Pay" - Professional Gaming and Streaming:

Gaming is a massive and worldwide industry that continues to grow daily. The CYBONIX team wants to offer their wealth of experience, knowledge, and connections within the gaming space to help any current or aspiring gamers and/or streamers among our holders.

“The Digital Gold Mine” - Crypto and NFT Education:

As the Web3 industry continues to scale around us, many people become overwhelmed by the amount of opportunity and information in front of them and they lack the proper foundation, guidance, and mindset. The CYBONIX team wants to offer education and access to resources to build your foundation as a trader and investor.

“Paradox” - Crypto Trade Ideas:

After implementing the Digital Gold Mine, a lot of people expressed interest in learning how to trade/invest; So we decided to take it to the next level. Not only will we teach our holders how to view the market with clarity, but also give them trading opportunities while they are learning. Inside of Paradox, Cybonix Holders will have access to a crash course teaching them how to take advantage of Top 20 Crypto and Alt Coin Paradox Trade Ideas (1hr/4hr setups that include entry, stop loss, and multiple take profit levels). All of the Paradox trade ideas work well for Spot Trading, Futures, and Overall Market Sentiment. Paradox will also include weekly podcasts/spaces on BTC Market Structure & Fundamental Events.

CYBONIX x SWIFT SHOOTOUT PLAY 2 EARN INTEGRATION FOR HOLDERS:

In a strategic partnership with Swift Shootout, we will begin integration into Swift Shootout’s game where holders will be able to actively play and earn with their CYBONIX Genesis in-game. Not only will holders be able to dive headfirst into this game but they will also be able to lease out their CYBONIX Genesis to others who are looking to use the characters to play within the game!

PHASE 2

CYBONIX REINFORCEMENTS MINT (2.0 COLLECTION):

The next collection of Cyborgs will be entering the CYBONIX ecosystem, comprising the 2.0 “Reinforcements” collection. The CYBONIX 2.0 collection will hold a unique set of utilities from the Genesis collection and will consist of the same bloodline and species as the Genesis and additionally, female Cyborgs will be created per popular demand. The exact date, time, and pricing details are TBD and once decided they will be communicated with the community as soon as possible.

The community funds accumulated from this mint will be used to create the Ultra-Rare Charity Collection, initiate the opening of “Wordon’s Vault,” and further development of our website to integrate the CYBONIX Armory Marketplace.

5) "WORDON'S MILITIA" ULTRA-RARE CHARITY COLLECTION:

Our limited ULTRA RARE collection will be released to the public with 100% of the proceeds going to charity. The exact structure of the sale of these NFTs has yet to be announced, as we are exploring avenues by which we can include as many community members as possible in the possibility of minting one.

The community will be given a complete breakdown and synopsis of 3 nonprofit organizations that we have vetted and interviewed and will get to decide which of the three the proceeds are directed towards from the mint. After the decision has been made by the community, the partnered nonprofit will join us in a community event to share how they will be using the funds and their long-term plans.

6) OPENING OF "WORDON'S VAULT":

Our community treasure pack will be opened and filled with funds designated from secondary sales, being used explicitly towards community events, marketplace utility, exclusive merch, brand and collab partnerships, and most importantly the community will be able to decide how these funds are deployed for the long term vision and utility of the project.

After Wordon’s Vault has been opened, we will present the community with several detailed options as to the long-term direction of the project and the future application of the CYBONIX Genesis NFTs. These options will include pricing and timing estimates, along with a detailed description of the application of the NFTs and the value they will provide to holders in each potential avenue of expansion.

As this vote approaches the team will have finished compiling and organizing all of the necessary infrastructures for a variety of different play to earn gaming applications for the collection, and will then turn the ultimate decision as to the exact avenue of utilization, over to the community for a vote. These options might include a “passive staking” P2E, an active player vs player P2E, or even cross integration into an existing game ecosystem!

Once the community makes its decision, progress will begin immediately on the long-term application of the CYBONIX Genesis and its specific on-chain token utility.

7) CYBONIX ARMORY IS OPENED:

While long-term developments are underway for the CYBONIX Genesis collection holder's chosen utility, the CYBONIX Armory will be opened to provide everyday value and utility to holders through an interactive and ever-changing marketplace. In phase 4 this marketplace will be OPENED, but far from finished, as we will be continuously adding to, and upgrading the marketplace as our brand and treasure pack grow.

CYBONIX holders will be paid "off-chain" rewards based on the quantity and duration of their holdings of both the Genesis and Wordon's Militia collections. These tokens can be redeemed within the Armory (marketplace) for a variety of items such as WL spots from partnered collections, raffles for free NFTs, exclusive merch collections and discounts, special offers from partnered brands and companies, tickets to both IRL and metaverse events, and much more.

The community will be able to provide continuous feedback as to what they feel offers the most valuable utility within the marketplace, and each holder will have the ultimate control over what they choose to redeem their earned rewards for.

The rewards will not be distributed linearly and there will be increased incentives and bonuses for holders of three or more, holders that minted in the primary sale, and holders that retain ownership of their CYBONIX over the long term. These initiatives are to reward our FIRST, BIGGEST, and STRONGEST holders with additional value.

PHASE 3

8) ANNOUNCE THE INTRODUCTION OF A THIRD SPECIES IN THE ECOSYSTEM: "INVASION OF WORDON" AND THE ARMORY'S EXPANSION:

The team will announce and begin marketing the release of a third, enemy, collection into both the short-term and long-term CYBONIX ecosystems. This third collection will also earn tokenized rewards and be developed into the chosen long-term application of the Genesis collection .

The Armory will also continue to expand and grow, with new categories of offerings, new partnerships, and new community-focused initiatives.

The community funds accumulated from this mint will be used to fund the CYBONIX IRL Event, CYBONIX Metaverse Space, .

9) CYBONIX SYNDICATE EVENT AND AND GENESIS MERCH DROP:

CYBONIX will announce the launch of our FULL Genesis merch collection, available only with rewards earned from holding and accumulating Genesis and Ultra-Rare NFTs. The specific details and designs of the full collection will be decided on by the community and developed to embody the community and value held within the CYBONIX collection.

Along with this, we will announce the specific details of our first IRL event, including location, dates, and activities. This IRL event will be centered around personal and professional growth and development, alongside network and community activities.

Finally, this phase will also include the development of a designated CYBONIX metaverse space which will be used for VR events and will allow a more readily accessible event scene to our holders who are too far or busy to attend the IRL events.

All of these events will be offered within the marketplace and optional for members to redeem with their rewards. You can take part in all (or none) of the offerings if they do not suit your interests the first time around, and continue to accumulate for future offerings.
